Overview

Health care in the US is changing: consumers are more engaged, the nation's aging population is growing, chronic diseases are on the rise, and game-changing laws like MACRA are being implemented in the shift to value-based care. These are just a few factors driving care delivery outside the four walls of a traditional doctor's office. Technology and the Internet of Things can help, providing improved and personalized care – and creating value for industry stakeholders.

But are consumers and caregivers ready for new technology like telehealth, and even robots and drones, to receive care? Are federal and state policies evolving to keep up with changing demands and technology in these value-based care models?

During this webcast, we'll discuss results from [Deloitte's 2016 Survey of US Health Care Consumers](#) which found that patients and caregivers are open to new technology for care, if care is high-quality and patient data is secure. We'll also discuss our recent [Realizing the potential of telehealth](#) report on trends in telehealth and consumer interest; the regulatory landscape; and the potential barriers, opportunities, and enablers for telehealth in the coming years.

Please join us Thursday December 15th, 2016 at 1 PM Eastern as Deloitte's Leslie Korenda and Casey Korba explain Deloitte's insights and research findings in the HealthcareWebSummit event: *Deloitte Research: Tech-enabled health care: Is the health care system ready?*

Learning Objectives

After attending this webinar, attendees will be able to:

1. Learn results from Deloitte's 2016 Survey of US Health Care Consumers on how consumers feel about using telemedicine, remote patient monitoring, and sensor technology for care
2. Understand the current policy landscape for supporting telehealth in value-based care models
3. Explore implications and strategies for health care stakeholders to evolve to meet consumers' needs
4. Plus engage in interactive learning through online question submission, attendee feedback and opportunity for follow up questions, and networking with attendees, faculty and other professionals through dedicated LinkedIn group.

Who Should Attend

Interested attendees would include:

- C-Suite Executives
- Healthcare Innovation, Transformation and Reform Executives
- Medical Directors
- mHealth Technology Executives
- Legal, Regulatory and Policy Executives and Staff
- Planning and Strategic Executives and Staff
- Business Intelligence Staff
- Population Health Executives
- Provider Network Executives
- Other Interested Parties

Attendees would represent organizations including:

- Telehealth Providers
- Hospitals and Health Systems
- Health Plans
- Medical Groups
- Accountable Care Organizations
- Provider Networks
- Other Healthcare Providers
- Government
- Pharmaceutical Organizations
- Solutions Providers
- Associations, Institutes and Research Organizations
- Media
- Other Interested Organizations

Faculty

Leslie Korenda, MPH
Research Manager
Deloitte Center for Health
Solutions

Leslie Korenda is a research manager with the Deloitte Center for Health Solutions, Deloitte Services LP. She helps Deloitte's health care, life sciences, and government practices with her research to inform health care system stakeholders about emerging trends, challenges, and opportunities.

Prior to joining Deloitte, she worked in the private and public sectors and in a variety of health care settings, including federal agencies, local health departments, medical centers/health systems, and community health organizations.

Korenda received a Bachelor of Science from Virginia Tech and a Master of Public Health from Yale University.

Casey Korba, MS
Health Policy Manager
Deloitte Center for Health
Solutions

Casey Korba, MS is the health policy manager for the Deloitte Center for Health Solutions, Deloitte Services LP, where she provides comprehensive regulatory, legislative, and policy analysis in areas including the transition to value-based care, technology enablement, and consumer transformation.

She supports Deloitte's life sciences and health care practice through conducting research to inform health care system stakeholders about emerging trends, challenges, and opportunities.

Corporate Pricing, Terms and Conditions

Individual vs. Corporate Site License Pricing

- Individual registrations cover a single phone line.
- Multiple persons may listen via speaker phone for the individual registration fee.
- Each individual receives a unique dial-in ID that is not re-useable.
- Corporate pricing is available when registrations are desired for more than one phone line.

Corporate Site License Attendee Registrations

- Organizations individually register all participants for web access and e-mail delivery unless arranged otherwise with MCOL, but corporate pricing will apply based on the number of employees registered

Eligibility

- Corporate pricing is only available to single organizations, or parent organizations and their affiliates.
- Professional Associations or other groups of separate organizations may not combine for corporate pricing.

Pricing Schedule

Events Priced at \$195 Individually: Site License pricing for one of any \$195 individual events is based upon the number of covered phone lines, according to the following table

Price Schedule

Covered Phone Lines /Logins	Total Price
Under 10	\$870.00
10-29	\$2,005.00
30-74	\$4,425.00
75-174	\$9,230.00
175-249	\$12,525.00
250+	Call for quote

Equivalent Price per employee and total savings compared to individual \$195.00 price*:

Covered Phone Lines /Logins	Price per Line	Total Savings
Under 10	\$174.00	\$605.00
10-29	\$100.25	\$3,895.00
30-74	\$88.50	\$10,325.00
75-174	\$73.84	\$27,645.00
175-249	\$59.64	\$49,425.00

* based upon the midpoint of employees in each range
